SOUTH CAROLINA ELECTRIC & GAS COMPANY - ANNUAL REQUEST FOR REVISED RATES

In Order No. 2009-104(A), the Public Service Commission of South Carolina ("Commission") authorized South Carolina Electric & Gas Company ("SCE&G") to construct and operate two 1,117 net megawatt nuclear facilities ("Units") to be located at the proposed Summer Branch Station site near Clintonville, South Carolina. In Order No. 2010-12, the Commission approved amended milestones and capital cost schedules for the construction of the new Units. On May 26, 2010, SCE&G filed a request, with an effective date of May 30, 2010, seeking Commission approval of revised rates to recover the cost of capital associated with construction costs for the Units during the period ending June 30, 2010. The request for revised rates ("Request") was filed pursuant to the provisions of the Base Load Review Act, S.C. Code Ann. §§ 58-33-210 et seq. (1976, as amended); the Commission's Rules of Practice and Procedure, 26 S.C. Code Ann. Regs. 103-223 (1978, as amended); and in accordance with the terms of Commission Order Nos. 2009-104(A) and 2010-12.

S.C. Code Ann. Section 58-33-280(B) provides that a utility must be allowed to recover through revised rates its weighted average cost of capital applied to all or, at the utility's option, part of the outstanding balance of construction work in progress, excluding as of a date specified in the filing.

SCE&G states that as of June 30, 2010, it will have approximately \$482 million in investment in the construction of the Units that is not reflected in current rates. In its Request, SCE&G seeks authorization to revise its current schedules of electric rates and charges to add the incremental revenue required to recover this investment. The proposed average increase to the residential class is 2.82%; small general service class is 2.71%; medium general service class is 2.62%; and large general service class is 2.55%. The amount and timing of these increases vary by rate schedules within these classes, and individual customer bill increases may also vary depending upon actual usage patterns and amount of consumption.

The South Carolina Office of Regulatory Staff ("ORS") has reviewed the Request for revised rates and the information provided by SCE&G to determine if the Request complies with the Base Load Review Act. A report indicating the results of the ORS review and analysis will be filed with the Commission on or before June 30, 2010.

No later than 10 days after the Commission's decision on the Request, SCE&G must file with the Commission, or denying the Request, a copy of the Company's Request may be obtained from the Commission at the following address: Public Service Commission of South Carolina, Clerk's Office, 101 Executive Center Drive, Columbia, South Carolina 29210. Additionally, the Commission's Rules of Practice and Procedure, 26 S.C. Code Ann. Regs. 103-223, require the corporate officers of SCE&G to file a copy of the Request with the Commission at 220 Operation Way, Mail Code C222, Cayce, South Carolina 29033.

Persons wishing to provide written comments to the Commission on the Request for revised rates and the information provided by SCE&G must do so by filing a written comment with the Commission. Comments should be sent to the Public Service Commission of South Carolina at the address below, the South Carolina Office of Regulatory Staff, 1401 Main Street, Suite 900, Columbia, South Carolina 29201; and K. Chad Burgess, Assistant General Counsel, South Carolina Electric & Gas Company, 220 Operation Way, Mail Code C222, Cayce, South Carolina 29033. Please refer to Docket No. 2010-157-E.

Any person who wishes to provide written comments related to the report of ORS may file their comments with the Commission within one month from the date of the filing of the ORS report. Written comments should be filed with the Public Service Commission of South Carolina at the address below. Comments must be also served on ORS and simultaneously mailed or electronically transmitted to SCE&G and all others who have previously filed comments. Please refer to Docket No. 2010-157-E.

SCE&G states that as of June 30, 2010, it will have approximately \$462 million in investment in the construction of the Units that is not reflected in current rates. In its Request, SCE&G seeks authorization to revise its current schedules of electric rates and charges to add the incremental revenue requirements related to this investment. The proposed average increase to the residential class is 2.82%; small general service class is 2.71%; medium general service class is 2.82%; and large general service class is 2.55%. The amount and percentage increases vary by rate schedules within these classes, and individual customer bill increases may also vary depending upon actual usage patterns and amount of consumption.

The South Carolina Regulatory Staff ("ORS") will conduct a review and audit of the proposed revised rates and the information supporting them to determine their compliance with the terms of the Base Load Review Act. A report indicating the results of ORS' review and audit will be served on the Commission no later than July 30, 2010.

No later than September 30, 2010, the Commission will issue a revised rates order granting, modifying, or denying the revised rates as filed by the Company.
